

# TAMPER PROOF AND IMPACT RESISTANT LIGHTING SOLUTION

SURFACE MOUNTED LIGHTING FIXTURE  
FOR AREAS WITH RISK OF VANDALISM

 TAMPER PROOF  
LOW PROFILE

 ENERGY EFFICIENT  
LOW VOLTAGE WITH  
HIGH OUTPUT

 IMPACT PROOF  
UNBREAKABLE

 REMOTE  
CONTROLLED BY  
COMPUTER SYSTEM

 COST EFFECTIVE  
EASY TO  
MANUFACTURE

 VERSATILE IN SHAPE  
TO ACCOMMODATE  
ANY SPACE

 EASY AND FAST  
INSTALLATION

 LOW  
MAINTENANCE

This solution provides increased security over existing lighting products.  
AREAS OF INTEREST:

Correctional & Treatment Facilities

Areas with a Risk of Vandalism

Clean & Server Rooms

Commercial Facilities

Residential Facilities

Custom Shaped Lighting Fixtures

**VERSATILE IN SHAPE TO ACCOMMODATE  
ANY AVAILABLE SPACE**

Tamperproof Lighting was founded on solving problems of vandalism in correctional institutions. Working in the electrical field within the institutional sector for more than 30 years, we find ourselves caught in a circle of working on broken lighting, on a daily basis. After years of repeating this redundant task over and over, a solution was created to reduce and even eliminate a risk of vandalism.

We are confident that the field tested Tamperproof Lighting solution meets the most rigorous application needs. It is adaptable and scalable for many applications and environments where protective and highly resilient lighting is demanded such as in hospitals, correctional institutions, parking facilities, various industrial, mining and construction applications.

 **TAMPERPROOF  
LIGHTING**
